

# THE DAILY NEWS.

Newport:

WEDNESDAY, SEPTEMBER 8, 1847.

BY O. F. JACKSON, 97-THAMES ST.

[Correspondence of the News.]

NEW LONDON, Sept. 3, 1847.

DEAR JACK:—Your well-conducted, excellent paper comes regularly to hand, and I as regularly peruse it over a dish of hot muffins and coffee. I rejoice at your success, for successful you must be to issue so good a paper; and, moreover, you deserve it, for the perseverance you have manifested in pushing the enterprise thus resolutely forward. God speed ye; and may your means become sufficiently ample, as I know your purpose is thorough, to make the "Newport Daily News" the best paper of its class in the country.

Our dailies, tri-weeklies and weeklies flourish about as usual,—nothing stirring or startling having occurred in our usually quiet village recently to wake them from the lethargy which seems to have fallen upon them since the Norwich people have made it "as clear as mud" that the channel of the river Thames is 14 feet deep and 600 feet wide.

Washington Hall is highly crowded by delighted audiences, witnessing a capital performance put up under the name of moving Panoramas and Italian Pantoccini.—This latter name is applied to the representation of a number of figures—life-like in appearance—which dance and sing, and go through with various other curious and peculiar operations, to the sound of music.—The illusion is so perfect that it is impossible to realize that the whole is simply the work of art. The conductors of this exhibition are gentlemen in every respect, and judging from the attendance some evenings, they are such as printers especially, like to fall in with. I have seen, on a single evening, no less than several of the craft present.

Our two (to you little) Hotels have done a flourishing business this season. I make mention of so unimportant a circumstance, because, though surrounded by gorgeous palaces, in comparison, I know you do not forget that Edwards and the Messrs. Bacon are a "whole team with a big dog under the wagon," in their vocation.

The Philadelphia's passengers found a good-deal of fault at the manner in which they were treated, and not having enough to eat.

The Missouri, got short of coal and provisions and put into Halifax. This vessel also had bad work in getting out of New York harbor, running down two or three vessels which were at anchor.

The New York got out of coal and provisions and put into our harbor for supplies. This vessel, in going up the East River, New York, to her dock, ran into a bark, injuring her considerably, as well as the steamer, and afterwards ran against the end of a pier, capsized a pile of boards, and broke both of a man's legs. This ends the first passage to this country of each of the four steamers.

This morning at 10 o'clock, Rev. Dr. Wayland preaches the Anniversary sermon before the Warren Baptist Association, in the first Baptist church, Rev. Mr. Smith's.

An adjourned town meeting, for the purpose of hearing the report of the committee on reform in our town government, was held at the State House yesterday, morning, and, without doing any business, was further adjourned to the 28th inst.

VERA CRUZ, AUGUST 21.—It is reported that Gen. Scott reached Ayotta, twenty miles from the capital, on the 13th, having had no fight on the way.

Major Lally reached Jalapa safely.

The reinforcement under Capt. Wells had a fight at the National Bridge, and lost five or six killed, with two or three wounded. All his wagons returned to Vera Cruz.

It was reported at Vera Cruz that a party of twelve dragoons were supposed to be taken by the Mexicans.

It was reported that Scott on his advance defeated a body of Mexicans after a hard fight.

The last division of the Army had left Puebla.

The Great Britain at the last advices remained on shore on the Irish coast.—The attempts to get her afloat during the spring tides were unsuccessful. Another attempt will be made this season, after some further repairing and patching, and getting additional propping gear.

## "CITY" ITEMS.

ODD FELLOW'S CELEBRATION.—To-morrow is the day fixed upon by the Odd Fellows for their celebration, provided it is not stormy. Five or six hundred members of the order are expected here from other places, and with them will probably come nearly as many spectators. The procession will move in our principal streets, giving all an opportunity to witness it, before proceeding to the church. The address we expect will be very interesting, and all who are prejudiced against Odd Fellowship had better go and hear it. John W. Davis, Jr., has been appointed Chief Marshall of the day, and will be assisted by George B. Knowles, Charles Devens, Jr., and Thomas T. Tilley. A dinner at the Ocean House will wind up the exercises of the day.

The two fellows arrested charged with stealing Herr Alexander's gold met, and chain acknowledge their guilt, and say they sold the chain at a store in Providence. The man that they say they sold it to denies of having bought any such thing. Steps will be taken to ascertain whether the story the boys tells is true or not.

The medal they hid some where out of town.

The bark America, Capt. Smiley, of this port, was spoken by a pilot boat in Vineyard Sound, and enquiry was made of the Captain where he was bound, and he said he did not know but he might touch at Sandy Hook. The general impression is that the vessel will be run into some foreign port, and that she, together with her cargo will be disposed of, at the instigation of one of her assignors, who boarded her off this harbor, thus eluding the creditors of the estate out of forty or fifty thousand dollars.

THE FRENCH STEAMERS.—The fates seem to be against the French line of steamers, for they have not made a passage yet without something occurring to mar the enjoyment of their passengers. The first one of the line, the Union, was detained in Cherbourg two or three days beyond her time of starting, waiting for the mails, and she finally left without any late papers on board. On her return her officers forgot to provide sugar for the passage.

The Philadelphia's passengers found a good-deal of fault at the manner in which they were treated, and not having enough to eat.

The Missouri, got short of coal and provisions and put into Halifax. This vessel also had bad work in getting out of New York harbor, running down two or three vessels which were at anchor.

The New York got out of coal and provisions and put into our harbor for supplies. This vessel, in going up the East River, New York, to her dock, ran into a bark, injuring her considerably, as well as the steamer, and afterwards ran against the end of a pier, capsized a pile of boards, and broke both of a man's legs. This ends the first passage to this country of each of the four steamers.

This morning at 10 o'clock, Rev. Dr. Wayland preaches the Anniversary sermon before the Warren Baptist Association, in the first Baptist church, Rev. Mr. Smith's.

An adjourned town meeting, for the purpose of hearing the report of the committee on reform in our town government, was held at the State House yesterday, morning, and, without doing any business, was further adjourned to the 28th inst.

A CONSCIENTIOUS JUROR.—"I remember," says Lord Eldon, "Mr. Justice Gould trying a case at York, and when he had proceeded for about two hours, he observed, 'Here are only eleven jurymen in the box; where is the other, one?' 'Please you my lord,' said one of the jury, 'he is gone away about some business, but he has left his verdict with me.'

It is alleged that among the hardened criminals who fill the English prisons there are no Jews. A Jewish murderer or burglar is unknown. A Jewish beggar is equally rare.

The following is the transcendental for "Miss will you take my arm?"

"Young lady, will you condescend so far to sacrifice your own convenience to my pleasure, as to insert the dignitaries and part of the extremity of your contiguous arm through the angular aperture formed by the knocking of my arm against the perpendicular portion of my frame?"

A DREADFUL COLLISION occurred on Lake Erie on Monday night last, between the large and powerful steamboats Nill and Wisconsin. The latter was totally disabled, and the Nill had a hole as large as a hogshead stove in her bows. The force of the concussion can be judged of from the fact, that the massive wrought iron shaft of the Wisconsin, seventeen inches in diameter, was so badly bent as to be useless. Her crank was broken. If the blow had not been thus mainly spent upon the large shaft, there is little doubt but that the Wisconsin would have been instantly sunk. The Nill took the Wisconsin's passengers on board, and towed her to Palmer, where both stopped to repair damages.

The N. Y. Express thus defines Fourrierism:—"Series of Groups hosing potatoes by music, washing clothes by the beat of the drum, ploughing by ploughes, and washing babies to the tune of Yankee Doodle, or God save the King."

LOWELL MANUFACTURES.—It is stated that 1,800,000 yards of cotton cloth are made at Lowell, Massachusetts, every week amounting to 92,000,000 yards per year—enough to extend twice around the entire world! Sixty-five thousand bales of cotton are worked up annually. Of printed calico there are made 14,000,000 yards per year. In these manufactures one million pounds of starch are annually used.

The ship fever has somewhat abated at Montreal and Quebec; but at Grosse Isle the deaths still average from thirty to fifty every 24 hours. About eight thousand have died either at sea, or after their arrival in Canada, during the summer.

A pamphlet of 42 pages has recently been published, giving an account of Dr. John Wilson, who lately died at Brattleboro, and who is generally supposed to have been the celebrated robber, Capt. Thunderbolt. It contains the confession of Michael Martin, or Capt. Lightfoot, the companion of Thunderbolt. The opinion strengthens, even in Brattleboro, that Wilson was really the noted Thunderbolt; Indeed, there are circumstances existing, proving this, which cannot be gainsayed in any manner.

CHEROKEE LEGISLATORS.—Among the members elected to the Legislative bodies and Executive stations of the Cherokee Nation, we notice the following queer names:—Trot-wallo-gi, Standing Deer, Wee-lic Too-wah-lic, Six Kille, Bark Flute, Takestas Jee, Wrinklesides, Lightning Bowles, The Mortar. Some of the unsuccessful candidates were: Feelhim, Coo-la-chi, Tiger, Alacna Cag, Toh-ye-skee, Laugh-at-Mush, Chicken Cock, Ah-quah-tah-kee, Un-mer-su-ya, and Chuh-wah-chucker.

There has lately been discovered near Sceaux, in the Loire, a large stone jar, of rude workmanship, containing six hundred Roman coins. The jar is about sixteen inches in height and eight inches in diameter. It was found in a species of chamber about two yards square, the walls of which were coated with a cement of extraordinary polish. It was at the same time enclosed in a niche, which had only one opening of sufficient size to admit a man's hand to drop in coin.

U. S. frigate Brandywine dropped down to Hampton Roads from Norfolk on Saturday, bound for Rio Janeiro, with Com. Storer as commander of the Brazilian station.

I. O. O. F.—A special meeting of OCEAN LODGE, No. 5, will be held at the Lodge Room this evening, September 8th, at 7 o'clock, for the transaction of important business. A punctual attendance of Officers and Brothers is requested.

By order of the N. G.

W. M. C. TURNER, Sec'y.

UNITED STATES HOTEL.  
On Pearl, Fulton and Water sts., New York,  
BY H. JOHNSON.

THIS is one of the largest and best kept Hotels in the city of New York. Board \$1.25 per day. Its location is particularly convenient for business men, and Mr. Johnson, the popular and gentle man landlord, makes the comfort of his guests a constant study.

Extract of a letter from Dr. Williams of Vt. Gentlemen—I will thank you to send me two dozen more of your Sarsaparilla and Tomato Bitters. I have used it with great success in four cases of dyspepsia, curing each of them in an almost incredible short time; likewise one case of rheumatism, and one of jaundice. I consider it a valuable compound, and must say I have used it with the happiest effects. Should like to have it as soon as convenient. One of the cases of dyspepsia was a gentleman who had suffered a long time, and had been to the Springs for two seasons.

A Boyden, Esq., of Cambridge, cured of the

dyspepsia of a year standing, after trying a hundred remedies without the least effect.

For sale by R. J. TAYLOR.

Another life saved by the use of Dr. Wistar's Balsam of wild cherry. The following certificate is from the wife of Mr. Enoch Perry, a very respectable farmer in Oxford County, Maine, and can be relied upon as true in every particular. It was not solicited, but given by the lady, from a sense of duty, feeling that she owed the preservation of her life to Dr. Wistar's Balsam of Wild Cherry,

Rumford, Oxford County, Me., July 22, 1845.

This may certify that I have for a number of years been severely afflicted with the asthma. In October, 1843, I took a violent cold, which produced a very severe cough, which was accompanied with severe pains in my side, and I sweat profusely nights. These bad symptoms continued, until I was so much reduced that I was unable to do any work about house, or even walk across the room without assistance. In July, 1844, I was so afflicted with shortness of breath, such great difficulty in breathing, and in such severe pain, that I was unable to lie in bed or sleep for three weeks. One physician who attended me and another who was consulted, both gave me up to die—said they could do no more for me. My friends despaired of my life. I had no hope of myself. I then commenced taking Dr. Wistar's Balsam of Wild Cherry. Before I had taken one bottle, I was able to walk about the house; I continued to take the Balsam until I had taken four bottles, and NOW I AM WELL, free from pain, little or no cough, do my work, keep no help, and have hot enjoyed better health for fifteen years.

Signed, RELIANCE PERRY.

None genuine, unless signed. I BUTTS on the wrapper.

HYPERION FLUID.—Those who wish for a valuable preparation for the hair, are referred to Mr. Boggs's advertisement in another column. His Hyperion Fluid, it is supposed, will soon supersede most fluids now in use for the hair, as it is a very superior quality.

CLICKER'S SUGAR-COATED PILLS.

The grand purgative for the cure of headache, piles, rheumatism, dyspepsia, scurvy, small pox, jaundice, rising in the throat, fevers of all kinds, heatburns, coughs, consumption, erysipelas, deafness, colds, gout, gravel, pains in the back, palpitation of the heart, inward weakness, dropsey, asthma, measles, salt rheum, worms, quinsy whooping cough, fits, liver complaint, itchings of the skin, nervous complaints, and a variety of other diseases, arising from impurities of the blood, and obstructions in the organs of digestion.

CAUTION.—Beware of an imitation article called Improved Sugar-Coated Pills, purporting to be patented, as both the pills and pretended patent are forgeries, got up by a miserable quack in the city of New York, who for the last four or five years has made his living by counterfeiting popular medicines.

Remember, Dr. C. V. Clicker is the inventor of sugar-coated pills, and that nothing of the sort was ever heard of until he introduced them in June 1813. Persons should therefore always ask for Clicker's sugar-coated pills, and take no others, or they will become the victims of a fraud. 25 cents per box, or five boxes for \$1.

Sold in Newport by R. J. Taylor, and by one agent in every town in New-England.

DOCT. INGOLDSBY'S PILES SPECIFIC.

### GENUINE BEAR'S OIL.

Highly Perfumed.—Perhaps our ladies and fashionables are not aware that three-quarters of the "Bear's oil," (so called) with which they anoint their locks, wondering that it does them so little good, is nothing in the world but hog's lard, so highly scented as to escape detection, save on close examination. This, however, is simply the fact, and one that ought to be known.

The only safe way is to purchase your Bear's Oil of HENRY JOHNSON, who gets it direct from Canada and the North Western Territory, and who never sells an ounce until he knows it to be genuine. The real Bear's Oil is a wonderful beautifier and strengthener of the hair, and should be used by every one desirous of beautiful locks.

The great and only Successful  
Remedy for the cure of Con-

IS Dr. E. W. Vondersmith's INDIAN COUGH  
BALM and LUNG BALSAM.

15-READ.

Disease of the Lungs and Throat cured.

White Plains, April 20, 1847.

This is to certify that I have been afflicted for  
five years with a cough, pain in the chest, night  
sweats, difficulty in breathing, etc., and I also  
expectorated a large quantity of frothy matter and  
blood, from which I was reduced to a perfect  
skeleton, my throat was very much ulcerated. I  
had horner's poultice applied to my throat twice a  
week, but received no benefit; I have used one  
hundred different kinds of Patent Medicines, re-  
commended by my friends, but all to no purpose.

A friend of mine, Mr. Willett, whose lungs had  
been affected for two years past, was cured by Dr.  
Vondersmith's Medicine. He insisted upon my  
trying Dr. V., and I did so. After I had used his  
medicine 15 days, I expectorated large quantities of  
yellow frothy matter, my chest expanded, and  
my difficulty in breathing subsided. I persevered  
with his medicine, and the result has been, I am  
perfectly cured of all my sickness. I recommend  
every conscientious try Dr. V.'s medicine. I am  
confident it will cure you. Your sincere friend,

EDWARD C. THOMPSON.

Inflammation of the Lungs.

New York, June 19, 1847.

Dr. Vondersmith—I have been subject to a  
cough, pain in the chest, difficulty of breathing,  
&c., for many years past. About four months  
ago I took a severe cold, which settled on my  
lungs. I was unable to attend to my business  
during the day. I would have dreadful coughing  
spells, that I thought it was impossible for me to  
survive unless I could get relief. The excessive  
night-sweats, had reduced my whole body to a  
skeleton. I expectorated white frothy mucus,  
in fact, should give the full particulars of my  
case, it would be almost incredible. I was recom-  
mended to try Dr. Vondersmith's Indian Cough  
Balm and Lung Balsam. I consented; when I  
had used it about one week, my cough decreased  
considerably, which gave me great hopes. I con-  
tinued with the medicine, according to directions,  
and the result has been that I am restored to health,  
a blessing that I have not enjoyed for years, until  
the present. I sincerely believe had I not made  
use of Dr. Vondersmith's invaluable medicine,  
that I would be moulder in the silent grave.—  
Therefore I believe that I am doing nothing but  
what is just, in stating the above facts, so that  
you may say, how all the afflicted who may call  
upon you to minister to them. I shall be the  
first to converse with the afflicted  
the call upon you. Your grateful patient and  
friend, JAMES B. HENDERSON,

No. 703 Washington street.

Consumption.

Staten Island, June 10, 1847.

I have great pleasure in giving you a  
certification, last December I was attacked with  
a severe pain in my left side, loss of appetite,  
and continual raising of white and yellow mucus,  
streaked with blood. I have been under the treat-  
ment of a dozen physicians, I was recommended  
by Dr. Vondersmith of Philadelphia, to use a Breathing  
inhaler, I purchased one, I only made use of it one  
week, it was the cause of bringing on a hemorrhage  
of the lungs, which reduced me so much that  
I was unable to sit up, my voice was entirely de-  
stroyed, it was difficult for persons to understand me.  
Dr. Vondersmith's Medicine recom-  
mended very strongly by a patient whom he had  
cured. I paid for half a dozen bottles, I received  
great satisfaction from that, which induced me to pur-  
chase a dozen bottles, I took according to the direc-  
tions, and cured me perfectly sound.

Yours, &c., ROBERT WILLSEY.

SAFEST, CHEAP AND EFFECTIVE.

This medicine makes no pretensions to mira-  
cles, but its powers, the raising of the dead, or to in-  
crease and astonishing sales daily and hourly, after  
the most approved method of the times; but  
bases all its claims upon plain common sense prin-  
ciples, as a simple aid to nature in restoring the  
human system to its proper tone and action, when  
by excessiveness or unavoidable circumstances it has  
become deranged or debilitated, and asks simply a  
factual *test* as a test of its curative properties.

Dr. Boardman,

Sir—In answer to your inquiry respecting my

case, I will merely say, that I have been sick since

I strained my breast and loins in May, 1836, from

that time continued to grow worse, when in the

fall of '39, I abandoned business, and have not

done any thing since. I suppose from all I could

learn about my case—frequently raising blood,

coughing very hard and expectorating profusely,

deriving no benefit from my physicians, and all

medicines recommended to me, that my case was

hopeless. Last winter my brother told me he had

heard a good account of Dr. Banning's Lace in

such cases, and was anxious that I should try it;

accordingly I procured one from you, and since I

began to wear it, my breathing, which was very

short and laborious, has become easy and natural;

the pain and fluttering or palpitation of the heart

has subsided; cough and expectoration greatly

lessened, my limbs which were exceedingly pain-  
ful have become useful, so that I can walk com-  
fortably. I am able to shave myself with comfort,

which for many years I have not been able to do.

The pibes, which have troubled me for nine years,

are nearly eradicated. I work some in the garden,

and am able to ride 4 miles at once with pleasure

and benefit. Yours, &c. WM. RANNEY,

Dr. G. M. Boardman, Middletown, June 25, 1843.

Dr. Boardman,

Dear Sir—In answer to your inquiries respecting

the effect of Dr. Banning's Lace in the case

of my wife, I will state that for twenty years

past, she has been afflicted with a complication of

complaints to which females are subject. She has

tried all the physicians and all the medicines rec-  
ommended for such complaints, without regard to

expense, and found only temporary relief. Her

most distressing complaints, palpitation of the

heart, oppression and a sense of great weight at

the pit of the stomach, prolapsus of the womb, &c.,

were relieved after wearing the lace two hours, and

she has continued to improve daily. With this

view of the case I cannot use language strong

enough to convey my approval of the instrument.

STEPHEN BROWN, JR.

PROVIDENCE, Oct. 26, 1846.

Doctor Boardman,—Dear Sir—I now take my

pen to inform you that my wife's health has im-  
proved very fast for the last two weeks from wear-  
ing one of your Laces. She has been out of health

about two years and has worn a different Supporter

from yours, which had only two pads. She re-  
ceived some benefit from that—but it would not

produce a cure. But now I can say with pleasure

that she is as smart as any of the young girls in the

neighborhood. She can now run up and down

stairs as fast as I can, and I feel so well pleased

with it that I hardly know how or what to write.

But one thing I do now, that she has been under

the care of seven Doctors in one year—and wear-  
ing your Lace two weeks has as well in the cure

as in a very short time. I want to write more, but I

have no time. I am truly, your friend and well

wisher, J. \*
